- **VF Letter Grade:** Students must attend *at least* 70% of the classes and take the midterm exam in order to be eligible to take the final exam. Students who do not satisfy these conditions receive a **VF** letter grade.
- Letter grades are assigned in accordance with the guidelines set by the Senate. For more information, refer to the guidelines available at Senate Guidelines.

IMPORTANT NOTES

- We kindly request that you watch the introductory video of the platform to be used in the course.
- Students are responsible for all announcements made during lectures, posted on the Physics Engineering Department website, and Ninova/Moodle. Students are also responsible for checking the course syllabus, and monitoring their itu.edu.tr emails.
- Exams consist of multiple-choice questions. Exam grades are calculated by subtracting one-quarter of the number of incorrect answers from the number of correct answers. If the resulting grade is negative, the grade is recorded as zero.
- Please review the 'Frequently Asked Questions' for details on exams and make-up exams before contacting instructors.
